Hydrogeit Verlag is the first – and only – publisher specializing in hydrogen and fuel cells throughout the German-speaking region. Founded by Sven Geitmann in 2004, it mainly offers titles about

- **HYDROGEN AND FUEL CELLS**
- **ELECTRIC TRANSPORTATION AND ENERGY STORAGE**
- **RENEWABLE ENERGIES AND ALTERNATIVE FUELS**

Sven Geitmann had taken an intense interest in hydrogen and fuel cells as early as 1997 and became a contributor to energieportal24 and H2Report in 2000. After he wrote a number of technical books, he founded his own publishing company to the northwest of Berlin. In 2005, he took on responsibility for the “H2Tec” magazine, which he renamed the “Magazin für Wasserstoff und Brennstoffzellen,” or “HZwei” for short. This trade publication soon boasted a revamped design and more issues per year and grew into the quarterly must-read for everyone following the hydrogen and fuel cell market. In 2015, Hydrogeit Verlag created a global English-language edition, titled “H2-international – The e-Journal on Hydrogen and Fuel Cells.” Since then, it has kept readers in all corners of the world up to date on what’s happening in the sector.

Hydrogeit Verlag uses several events calendars to announce important meetings of the hydrogen and fuel cell community.

HZWEI IN PRINT

HZwei events calendar included in the German-language journal.

1 — NAME

HZwei, das Magazin für Wasserstoff und Brennstoffzellen
ISSN 1862-393X

H2-International – The e-Journal on Hydrogen and Fuel Cells
ISSN 2367-3931

2 — ABOUT

HZwei is the German-language magazine of choice for everyone who wants to stay at the forefront of news about hydrogen, fuel cells and electric transportation. In-depth articles about science, technology and the latest developments keep readers up to date on advances in the hydrogen and fuel cell sector and the electric vehicle market. The focus is on detailed yet clearly written news stories by industry journalists and RD&D experts.

3 — CIRCULATION PROFILE

The journal is intended for readers who are looking for in-depth news articles on hydrogen, fuel cells, energy storage and electric transportation. The main audience consists of professionals and executives working in all parts of the energy market. This group comprises decision makers at production and trading companies, representatives for associations, government agencies as well as universities, and staff members at gas companies, carmakers and their suppliers.

SURVEY METHODS IN BRIEF

1. Analyzed computer file listing individual names.
2. Starting point was print circulation in Germany, which was 18,691 copies in 2017, whereas 335 copies a quarter, that is, 7.5 % of circulation, were not considered.
3. Focused on individual recipients at organizations, as stored in file.
4. Included deliveries between July 2017 and June 2018.
5. Survey was conducted by Hydrogeit Verlag.

REACH

HZwei is available for subscription in print and digital format all over the world. It is also sold by the publisher, in bookstores and online. Likewise, it is distributed at trade shows and expositions, conferences and seminars, and universities as well as other types of organizations. Issues published prior to the current year can be downloaded at no cost.

H2-international is a subscription-based digital service. Each issue is available as a PDF file. Members of associated organizations, for example, IAHE and NOW, have free access to the service.

1 — MAGAZINE PAGE SIZE

DIN A4; 210 mm horizontal × 297 mm vertical
Type area: 175 mm horizontal, 265 mm vertical

2 — PRINTING AND BINDING

Web offset, saddle-stitched with two staples
(just as for H2-international January issue)

3 — HOW TO SUBMIT

Email data to kontakt@hydrogeit.de
If you have any questions, please call +49 330 552 132 2

4 — DATA FORMATS

We recommend that you send files in PDF or X3 format. They must be ready for printing, with all required fonts embedded. Halftone images require 300 dpi at original size, while black-and-white ones must have a minimum of 600 dpi.

5 — COLORS

CMYK printing colors according to ISO 12647-2 (PSO).
Special colors available on request.
It is recommended that you use standard ECI offset profiles to convert colors and check color space in ICC Color Management.
The ECI_Offset_2009 color package can be downloaded for free at www.eci.org

6 — LIABILITY

The publisher shall not be held liable for the publication of an incorrect advertisement if it contains errors, such as different text, colors or illustrations, contained in the ad materials that were received by the advertiser. If it is deemed necessary to adjust image exposure owing to incomplete or damaged files, wrong settings or a lack of information, the work will be billed to the advertiser, as will additional work spent on typesetting or reproduction to correct for errors such as those mentioned previously.

1 — JANUARY

- Where each party stands on H₂ and fuel cells
- The role of green gases in the energy system
- Hydrogen stored in ammonia
- HyBalance: Wind hydrogen in Denmark
- Fueling station compressors
- Reduced-platinum catalysts
- HyLaw: Legal barriers and laws on the books
- Fuel cell buses in Europe and Asia
- Future of marine propulsion
- Fuel cells to disrupt the heat market
- Fire protection and safety
- NIP: Notes from annual meeting
- Post-show report on f-cell in Stuttgart
- Post-show report on eMove360° in Munich

Available in: 2nd week of January

Ad closing: Dec. 14, 2018

Materials due: Dec. 21, 2018

Dates	Events
January 21 to 22	Kraftstoffe der Zukunft, Berlin, Germany
January 30 to 31	EL-motion, Vienna, Austria
February 5 to 7	E-world, Essen, Germany
February 13 to 15	H ₂ meetings by HyVolution, Lyon, France
February 27 to March 1	FC Expo, Tokyo, Japan
March 11 to 15	ISH, Frankfurt a. M., Germany
March 12 to 14	EES and IRES, Düsseldorf, Germany
March 13 to 15	EEV Convention, Geneva, Switzerland
March 20 to 24	e-Mobility World, Friedrichshafen, Germany
March 21 to 24	New Energy Days, Husum, Germany

2 — APRIL

- Hydrogen stored in metal hydrides
- MegaLyseur electrolyzer
- Hydrogen created from plastic waste
- Residential fuel cell heaters
- Production techniques
- Overview of current transformers
- Hydrogen in aviation
- Real-world test of an electric car
- Projects in the Netherlands
- Energy Storage in Düsseldorf
- Preview: Hannover Messe

Available in: last week of March

Ad closing: March 2, 2019

Materials due: March 9, 2019

Dates	Events
April 1 to 5	Industriemesse, Hannover, Germany
April 2 to 4	Batterietagung, Aachen, Germany
April 8 to 9	Future Mobility Summit, Berlin, German
April 10 to 11	Electric Vehicles Europe, Berlin, Germany
April 25 to 28	ams i-Mobility, Stuttgart, Germany
May 7 to 9	Battery Show Europe, Stuttgart, Germany
May 14 to 17	The smarter E Europe, Munich, Germany
May 19 to 22	EVS 32, Lyon, France
May 22 to 23	HFC, Vancouver, Canada
May 24	GreenTec Awards, Berlin, Germany
June 2 to 7	WHEC 2019, Tokyo, Japan
June 5 to 6	BDEW-Kongress, Berlin, Germany
June 20	dena Power-to-Gas, Berlin, Germany

3 — JULY

- Real-world test of a Daimler GLC car
- Maritime applications
- Cryogenic hydrogen
- LOHC for hydrogen transport
- Hydrogen in the solar industry
- Overview of power-to-gas projects
- Fuel cell commercial vehicles
- Stationary fuel cells
- Post-show report on Hannover Messe
- Intersolar and ees in Munich
- EFCF in Lucerne

Available in: last week of June

Ad closing: June 1, 2019

Materials due: June 8, 2019

Dates	Events
July 2 to 5 Juli	EFCF, Lucerne, Switzerland
September 4 to 5	E-Motive, Frankfurt a. M., Germany
September 9 to 13	Jess Summer School, Athens, Greece

4 — OCTOBER

- Hydrogen in refineries
- MEAs – core components of fuel cells
- Bioenergy for hydrogen production
- Uninterruptible power supply
- Alkaline fuel cells
- Education and training
- Fuel cell industrial trucks
- Real-world test of an electric car
- Post-show report on EFCF in Lucerne
- Preview: f-cell in Stuttgart
- eMove360° in Munich

Available in: 2nd week of September

Ad closing: Aug. 17, 2019

Materials due: Aug. 24, 2019

The editorial board reserves the right to change the editorial schedule at any time.

Dates	Events
September 10 to 11	f-cell, Stuttgart, Germany
September 10 to 13	Husum Wind, Husum, Germany
September 12 to 22	IAA Pkw, Frankfurt a. M., Germany
September 23 to 26	Hydrogen + Fuel Cells North America, Salt Lake City, USA
September 24 to 25	DBI-Fachforum Energiespeicher, Berlin, Germany
September 24 to 26	ICHS HySafe, Adelaide, Australia
October 14 to 15	Residential Energy Storage Forum, Rome, Italy
October 15 to 17	eMove360°, Munich, Germany
October 16 to 18	Energy Storage World Forum, Rome, Italy
November 12 to 14	PowerGen Europe, Paris, France
November 21 to 22	Forum Neue Energiewelt, Berlin, Germany
November 26 to 28	gat + wat, Cologne, Germany
November	Wasserstoff-Symposium, Stralsund, Germany
